

Our Services

Xplore Business's Carrier Services partners can choose from a diverse range of options – to expand their connectivity offerings and optimize their networks.

Dedicated Internet Access

Ensure a more reliable online connection with Dedicated Internet Access. Symmetrical bandwidth options allow for matching upload and download speeds. Choose from fixed wireless or fibre solutions.

Dedicated Internet Access solutions:

**Fibre
(Active Ethernet)**
100 Mbps – 10 Gbps

**Wireless
(Licensed & Unlicensed)**
5 Mbps – 1 Gbps

- Industry-standard Service Level Agreements
- 10-12 weeks installation*

BisFibre

Our Gigabit Passive Optical Network (GPON) can serve multiple small businesses through a single point-to-multipoint access network.

Fibre solutions:

BisFibre:
500 Mbps – 1 Gbps

- Symmetrical speeds
- Unlimited data
- 7-14 days installation*

BisWireless

Our nationwide fixed wireless network provides primary and secondary connections to businesses of all sizes.

Fixed wireless solutions:

BisWireless
50 Mbps/10 Mbps 100 Mbps/10 Mbps

- Backup plans available
- Unlimited data
- 7-14 days installation*

BisSatellite

Our satellite network offers reliable connections to businesses across the country – including Canada's most remote and hard-to-serve locations.

Satellite solutions:

BisSat
50 Mbps/10 Mbps 100 Mbps/10 Mbps

- Monthly data plans
- Backup plans available
- 7-14 days installation*

*Installation timeframe determined by site survey.
